

CREATIVE LIFE STORY TRAINING

This training is for Sheffcare carers, activities coordinators, volunteers and visitors who want to learn creative ways to engage with residents living with dementia.

On the training we will cover storytelling, wellbeing, poetry, music, art, reminiscence and much more! We will also give you top tips on how to support intergenerational story sharing sessions with children.

Each person who attends the training will get a gold wellbeing box to share with a resident living with dementia in their care home and a Stories for the Soul certificate of attendance.
